PRAKTIK

Cooking kettle for food manufacturers

The **VOSS PRAKTIK** cooking kettle is characterised by its low power rating and mobile design. Giving you extreme flexibility with regard to installation. Due to the identical depth of all models you can build up a neat line of several cooking kettles and increase your capacity step by step.

The separate control box can be mounted on any wall and with the modern controller you can prepare, store and start the application for your individual thermal process.

You can upgrade the **VOSS PRAKTIK** with a wide range of options and accessories to match your individual requirements.
